SUMMARY

Motivated and curious full stack developer based in Montpellier, I design and improve features on both front-end and back-end. My projects have strengthened my skills and teamwork, notably through a prize-winning hackathon and the redesign of an association website. Passionate about front-end, I aim to continue growing with modern frameworks, while consolidating my back-end skills, and contributing to concrete projects within a dynamic and engaging team.

EDUCATION

Master's in Internet Technologies *Pau, FR*
Université de Pau et des Pays de l'Adour *09/23 – 09/25*
Honours

Bachelor's in Computer Science *Pau, FR*
Université de Pau et des Pays de l'Adour *09/20 – 06/23*
Honours

Scientific Baccalaureate *Oloron-Sainte-Marie, FR*
Lycée Jules Supervielle *09/17 – 06/20*

PROJECTS

Personal Web Portfolio *130h*
Developing a portfolio using React, Node.js, and PostgreSQL. Features include a contact form, project management via Prisma, and Vite integration. Responsive and accessible interface with polished UX/UI.

Shared Budget Management Website *80h*
Designed a dynamic web application for managing shared budgets. Backend built with Node.js and Express.js, secured REST routes, Google OAuth authentication, PostgreSQL database, and Docker orchestration.

Deezer Blind Test Mobile App *70h*
Developed an Android game using the Deezer API. Implemented multi-screen navigation, keyboard input handling, dynamic display, and local score storage. Built with Android Studio in Java.

WORK EXPERIENCE

Full Stack Web Developer - CGI France *Castelnau-le-Lez, FR*
Project : Femmes@Numérique *03/25 – 08/25*

- Developed the Associations section (directory, forms)
- Built a dynamic directory using WordPress
- Developed custom WordPress components
- Implemented asynchronous data loading via REST API
- Integrated code according to provided mockups
